

Turnitin Originality Report

An **Originality Report** is an indication of similarities between a piece of work submitted by a student and a database of previously submitted work, websites and other sources. If a match between a submitted piece of work and an existing work is found, Turnitin will highlight the matching text and provide a summary on the Originality Report. Originality reports are usually available around 5 minutes after submission but resubmissions can take up to 24 hours.

Please note that the matching text found is not an assessment of whether work has or has not been plagiarised. Originality Reports can help tutors to locate potential sources of plagiarism. However the decision to deem any work plagiarised should be made only after careful examination of both the submitted paper and the suspect sources.

Opening a Originality Report to the Course Page

Navigate to the course that you had previously set up a Turnitin assignment in. Click the name of the assignment. You will then be presented with a list of submissions (see below), which is called the Turnitin Assignment Inbox. Please note that student names have blanked.

The screenshot shows the Turnitin Assignment Inbox interface. At the top, there are tabs for 'Summary', 'Submit Paper', 'Submission Inbox', and 'Options'. Below the tabs are buttons for 'Refresh Submissions' and 'Enroll All Students'. A search bar is located on the left, and a 'Delete submission' button is on the right. The main area displays a table of submissions with the following columns: Student Submission, Paper ID, Submitted, Similarity, and Grade. The table contains four rows of submission data. Red arrows point from callout boxes to specific elements in the interface:

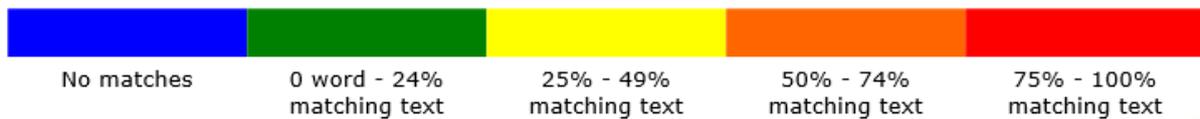

- Student names and submission titles:** Points to the 'Student Submission' column.
- Unique paper ID to identify submission:** Points to the 'Paper ID' column.
- Links to the Originality Report and Document Viewer:** Points to the blue links in the 'Student Submission' column.
- Date/time submitted. Late submissions highlighted in red:** Points to the 'Submitted' column, where the date '13/01/14, 23:59' is highlighted in red.
- Links to the Grademark tab of the Document Viewer:** Points to the blue pencil icon in the 'Grade' column.
- Indicates if the student has viewed the results:** Points to the blue checkmark icon in the 'Grade' column.
- Download submission:** Points to the download icon in the 'Grade' column.
- Delete submission:** Points to the trash can icon in the 'Grade' column.

Student Submission	Paper ID	Submitted	Similarity	Grade
Part 1: Translation differences	29308817	13/01/14, 18:09	34%	-/100
Part 1: 302 presentation 2, 534514	29169324	10/01/14, 16:39	0%	-/100
Part 1: How Lili Yuan Became Middle Class - Mistakes Essay	28992912	7/01/14, 12:36	0%	-/100
Part 1: LI	29327185	13/01/14, 23:59	1%	-/100

Locate the **Similarity** column, to view the Originality Report for a particular student, click on a cell with the colour coded percentage value next to the student's name.

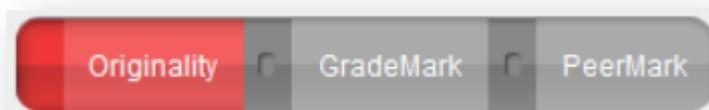

Originality Reports currently being processed are represented by a faded grey icon.

The colour of the report icon indicates the Overall Similarity Index of a paper based on how much matching text was found.

Please note that it takes approximately 10-30 minutes for a report to be produced after the student has submitted the work. During this time the similarity will show as **Pending**.

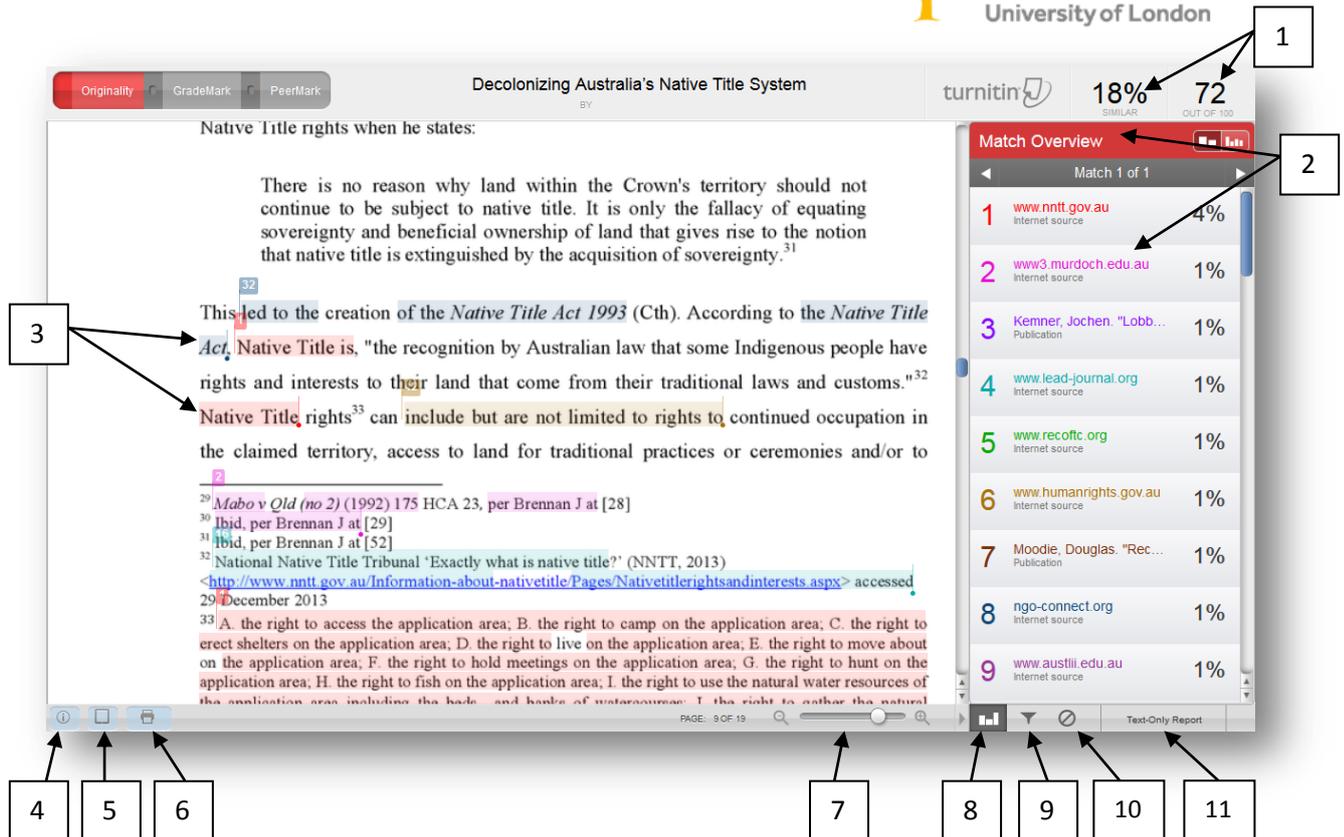

The Turnitin Document Viewer has three different functions. These can be selected by accessing the tabs at the top of the screen.

Originality Check - enables the user to check the originality of student submissions against the internet, periodicals, journal and papers and other student submissions.

GradeMark - enables an instructor to edit and grade student papers online. The instructor can add comments within the body of the paper, point out grammar and punctuation mistakes, assess the student's performance within the class and enter a grade for the paper that is automatically saved into GradeBook (optional).

PeerMark - simplifies peer reviewing and enables the setup of standard review questions in any subject.

Decolonizing Australia's Native Title System

turnitin 18% 72

Native Title rights when he states:

There is no reason why land within the Crown's territory should not continue to be subject to native title. It is only the fallacy of equating sovereignty and beneficial ownership of land that gives rise to the notion that native title is extinguished by the acquisition of sovereignty.³¹

This led to the creation of the *Native Title Act 1993* (Cth). According to the *Native Title Act*, Native Title is, "the recognition by Australian law that some Indigenous people have rights and interests to their land that come from their traditional laws and customs."³² Native Title rights³³ can include but are not limited to rights to continued occupation in the claimed territory, access to land for traditional practices or ceremonies and/or to

Text-Only Report

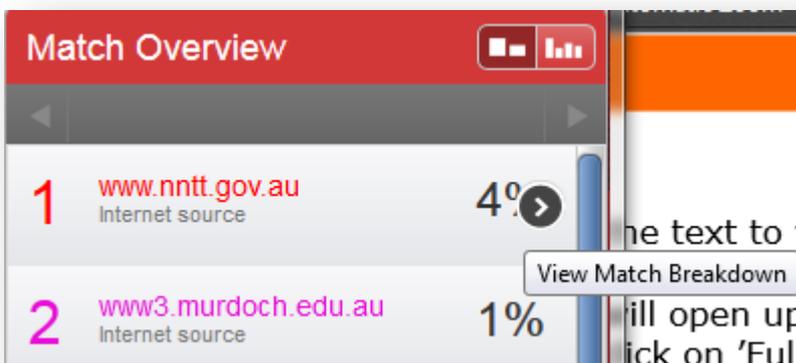

- 1 - The similarity percentage and grade/mark for the submission.
- 2 - Primary Source View panel; all matching sources are listed here by percentage and are referenced (by colour and number) in the main body.
- 3 - Highlighted text means that Turnitin has found a matching source in its database.
- 4 - Information about the assignment, such as Assignment No, word count, file size, information regarding the originality and more.
- 5 - iPad Turnitin app access.
- 6 - Options to download and save the students Originality Report.
- 7 - Zoom in and out of the text for the assignment.
- 8 - Change the view of the Primary Source panel to Overlapping Source which enables you to see if Turnitin has found multiple sources that match the same section in your assignment.
- 9 - Options to filter out a students Bibliography, quotations and small percentage matches.
- 10 - View and edit any excluded sources.
- 11 - Text Only report option will revert the originality report back to the old originality report view (two column, text only version).

Viewing sources

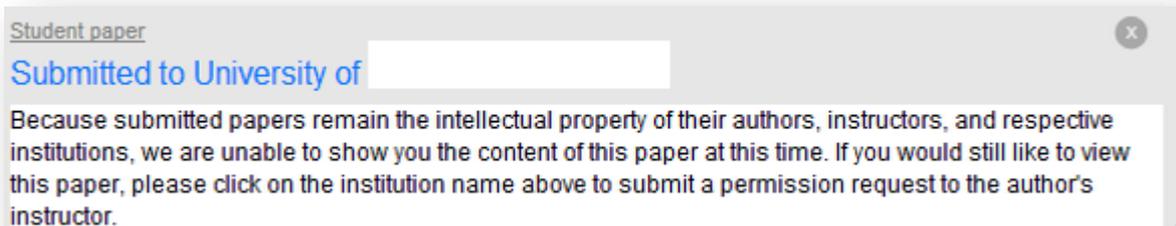

Click on the number next to the highlighted text this will open up a pop up window with a summary of the matching text source. To view a full source click on 'Full Source View' this will open in the area to the right, close it when you are finished.

You can follow sources of a match in more detail in the **Match Overview** section (right of the originality report). Hover the cursor over a resource you want to view and click on the arrow to **View Match Breakdown**, this will show you every source found by Turnitin for that particular text match

If a matched source has been copied from a student submission from another University then you will see the following message:

If you wish to view the submitted paper from the other university click on the institution name on the top of the message to submit a permission request to access the paper to the author's instructor. After you click on the institution name, a message in a new page will be displayed.

To submit your request to access the paper from the university, click on **Send a request to review this paper** and the instructor at the other institution will receive an email with the request from our institution.

Because submitted papers remain the intellectual property of their authors, instructors, and respective institutions, we are unable to show you the content of this paper at this time.

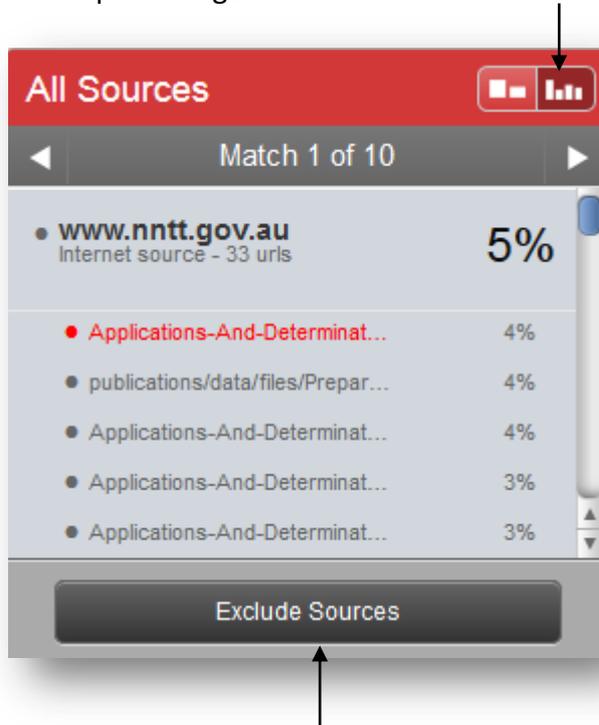

If you would still like to view this paper, please use the button below to submit a permission request to the author's instructor. We will send the instructor an email detailing your request and include any information the instructor will need to respond if your request is accepted.

[send a request to view this paper](#)

Excluding Sources

If you wish to exclude a match from the similarity index percentage you can remove the source from the calculations.

Click on the **All Sources** icon (see below), which will open a summary of All Sources in order of match percentage.

To exclude any of these sources click on the **Exclude Sources** button, select the sources to be excluded in the box next to the source then click on the now red **Exclude** button at the bottom of the page. Once sources are removed, the similarity index percentage will be recalculated to generate a new originality report.

To view or edit excluded sources click on the **no entry**  icon.

Save and print Originality Reports

To print a submission with the comments click on the **Printer** icon (see below) at the bottom left of the page in the **Document Viewer** then select **Download PDF of current view for printing** from the menu that appears.

Please note that when viewing the PDF file of your assignment, the feedback is listed at the end of the document.
